CARPET BAGGERY IN FRANCE.

When the Corps Legislatif adjourned *sine die*, on the 27th of April, "there were shouts of Vive l'Empereur!" from the government members, and counter-cries of "Vive La Liberte!" from the opposition seats; but in the contest at the polls the government cry will be, "the Emperor *the* Liberty! one and inseparable, now and forever!" The estimable people who do not like Louis Napoleon, the well intentioned, call all this putting in motion "the admirably effective machinery by which the Legislative Chamber is packed;" and they are fond of showing that an election in France is nothing more or less than a farce, wherein the people are made to go through the motions of expressing a free choice, but are constrained simply to record certain edicts which have been issued from the Bureau of the Minister of the Interior at Paris. This may all be quite true; but is Louis Napoleon in this a sinner above all other men? Is it in France alone that the science of stifling public opinion and converting minorities into majorities is understood and practised; and is it not possible that the main difference between the election of a government deputy in France and a carpet bag Congressman in South Carolina is that the job in the one case is executed with that neatness, skill and grace characteristic of the French, and that the work in the other case is done in that blundering, awkward, and unnecessarily offensive manner which seems to be inseparable from all the deeds of the party claiming to possess all the decency, morality, education, and patriotism of the country? They manage these things better in France—that is all the difference. It is essential to Louis Napoleon that the Legislative Chamber should be filled with men subservient to himself; it is essential to the Republican party in the United States that they should retain a two-thirds majority in Congress; and neither the French Emperor nor our Republican masters are at all squeamish as to the means which they employ to secure their ends. The emperor conducts his ballot-box stuffing, gerrymandering, intimidation, and bribery skilfully, and really gives a good government in return for the majorities which he thus procures; our despots blunder at their work and give us the worst government in Christendom. Louis Napoleon is fighting for what is dearer to him than life—the perpetuity of his dynasty and the preservation of France from revolution and anarchy; our usurpers are fighting simply that they may continue to hold the purse-strings of the nation and grow rich on the spoils of office. But the Emperor resorts to no means that are too foul for these men to use; and, while he throws over his most ugly deeds the robe of propriety, they display theirs in all their naked deformity. —*N. Y. World.*

WASHINGTON AND BELMONT.

Grant, the soldier, commenced his career in a certain fashion, which has been very exactly imitated by Grant, the President. The very first attempt of the former was at Belmont, and resulted in what was very far from being a success. The first effort of the latter, in his battle at Washington, has been anything but a victory. In the case of Belmont, as well as that of Washington, the initiative of the campaign was a good deal discouraging to the friends of the leader.

We observe, in both campaigns, a good deal of the same sort of strategy. At Belmont, General Grant had the hardihood to attack, with green volunteers, a superior rebel force, under the very guns of the most powerful rebel work in existence. At Washington, Mr. Grant attempted the herculean labor of attacking no less a position than that defended by radical office-holders,—the which, as every strategy knows, is the most impregnable of all offensive and defensive works. At Belmont, the beginning of the attack seemed like a victory.—When the campaign was opened at Washington, the first assault was auspicious. In both cases, the friends of the leader professed to believe that a tremendous victory was about to be secured.

Scarcely was the first hurrah heard, when the tide of victory suddenly set in an opposite direction. There was a reflux of rebels at Belmont, who straightway sent Grant to the rightabout. Stewart and Washburne were scarcely into position before they were driven out. At Belmont and Washington, the men who, one moment, were shouting "Victory!" the very next moment had turned tail to the foe, and were getting, "Devil take the hindmost!"—*Chicago Times.*

WELL SAID.—The controversy between Senator Abbott, of North Carolina, and Senator Sprague, of Rhode Island, will not proceed to extremes. It was all a mistake —and is now explained and settled. Senator Abbott was represented as regarding the language used by Mr. Sprague as an insult which the people of North Carolina would never forgive him for quietly accepting. We can scarcely suppose the people of North Carolina felt the smallest concern about the matter one way or the other. If Mr. Abbott had been an old citizen of the State, and elected under a normal condition of affairs, it is possible that the people of North Carolina might have shared in some degree the indignation experienced by their representative in being made the subject of a derogatory epithet, though, even then, we are not sure that they would have expected him to get into a dog fight in order to prove that he was not a puppy. But the people of North Carolina, when not permitted to have public agents of their own choosing, when forced, by the practical working of the reconstruction laws to be represented by strangers, will materially feel no interest whatever about these men in their personal relations.—*Bull, Sun.*

LEGISLATIVE CORRUPTION.—The New York *Commercial*, alluding to the corrupt legislation of the times, the buying and selling of votes at Albany, &c., says that there seems to be no security against the money power of the country. Statutes are bought the same as pork and potatoes.—Honest legislators are overwhelmed by the power of venality and swept down by the tide of corruption. The evil grows worse and worse every year. The system of legislation is most disgraceful, and there is no prospect that any improvement will take place until the people are aroused to take more interest in the affairs of the country. This is true, and applies to Congress, State Legislatures, and often to municipal corporations. The people must look vigilantly and constantly to their interests in these matters, else legislators, seeking either profit or individual advancement by the dispensing of jobs or rewards to politicians, will sell them out entirely.—*Baltimore Sun.*

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, MAY 5, 1869.

A CASE IN POINT.

One of the clearest distinctions is always drawn in the mind of every intelligent North Carolinian between a mere carpet bagger and a respectable man from the North or North West, who comes among us to help us rehabilitate the South, to restore prosperity to our wasted fields, to combine his means, or labor, or both, with our industry, that our State may become what her natural resources entitle her to be, first among the foremost States of the entire Union. There is a wonderfully wide difference between two such representative men, and he must be indeed very obtuse who cannot percieve it at a glance. Some affect to be unable to comprehend the difference. We have entire respect for an honest laboring man wherever he may be—whether amid the ice-ribbed regions of Maine, or the broad savannahs of Florida. If he attend to his own affairs, conduct himself as a good citizen, seek not to degrade or malign or oppress his neighbor, we care not whence came he, our good wishes and courtesies are his.

But we have written above, "A case in point." What is it? Look to Virginia.—Some of the truest and best native men of that grand old State are supporting Mr. Walker, a Northern man, for Governor against Wells who is a rather bad specimen of a carpet-bagger. Without discussing the policy adopted by the late Virginia Convention, we can readily understand, how a decent, well-behaved, intelligent person as Mr. Walker is understood to be, who is no mere adventurer and office seeker, should be preferred to a harpy and pillager of the Wells sort, who boasts of his sacrifices in behalf of the people of the "Old Dominion," when it is notoriously true, that he is a miserable carpet-bag office seeker, who has "come down South" for plunder and profit, and who cares nothing, whatever, for the prosperity or peace of the people who are so seriously afflicted by his unwelcome presence. Under no circumstances would we vote for such a creature. He is positively unworthy of the countenance or support of any man who has not sold himself "bag and baggage" to the enemies of his race and country.

We make these remarks because they are specially applicable to our people. An effort has been made more than once to make Northern men believe that our people were so utterly hostile to them that social ostracism and personal injury would meet them on their arrival South. That this is unqualifiedly false and slanderous we have several times showed. All of our people in this and other Southern States are really anxious for good, worthy settlers to visit us and dwell among us. In this there can be no sort of mistake. There are many Northern men now living in North Carolina who not only are not molested, but are treated with every neighborly attention and kindness.

The Richmond *Whig*, whose exact political status we pretend not to understand, has recently contained articles with which we are gratified. It offers some remarks that appear to be just, and certainly appositive, and without extending our own observations, we quote them. It says:

"In working strenuously as we all should to bring out as large a vote as possible, Republican and Conservative, white and black, against the carpet-bag candidate, we should be careful to avoid unnecessary acrimony of language—above all things we should keep before the people of Virginia and the people of the North the distinction we make between carpet-baggers and settlers, adventurers and substantial adopted citizens—between the parasite that lives by absorbing the substance of others and the honest man who subsists upon his own means and by his *own* regular industry.—We should never lose sight of this distinction, for it is important that we should make it known far and near, to foreign and Northern immigrants, as also to the Government authorities, that we not only desire, but cordially invite and will warmly welcome all men and families who come here to live, to work and to cast in their fortunes with us, whatever their politics or their birth place. We want population and capital—we want producers and tax payers—we want industry and enterprise."

WAR.

It evidently remains with President Grant whether we are to have war or not. By the course pursued by Congress in refusing to ratify the settlement of our difficulties with England by Reverdy Johnson, and by the insane utterances of such public incendiaries as Sumner, of Massachusetts, and Chandler, of Michigan, the English mind has been wrought up to fever and fighting heat. We do not believe there is any bluster on the English side. The press, the Parliament, the government, the people are united—there is perfect agreement throughout. If Grant and his advisers are bent on war they will be accommodated. And we are in a nice condition truly for a war. Over one-third of our country is still prostrate from an exhausting struggle of four years and the bad legislation consequent thereon; our navy is in no condition to meet the splendid vessels of Great Britain; our treasury is empty, or what is worse, we are irretrievably in debt; our people are oppressed; wicked men are conspiring to overthrow our liberties; the *causes* of war will not produce a united action among our people; the party in power has not the confidence of the white people of the country. What folly then to involve our nation in a terrible and sanguinary war, the issue of which no man can anticipate, and which will only increase our difficulties, embarrassments and sufferings. But war there will be, if Grant follows the leadings of a wicked ambition or the teachings of the Bombastes Furioso, of Michigan, or the vain and crotchety "Bay State" rhetorician.

But war with England is not the only chance that is offered to our people. Grant means to recognize Cuba as a belligerent.—So says Greeley's paper—so say others. The *Tribune* says: "The administration has determined to recognize Cuban belligerency at an early day. The policy and mode of proceeding are determined upon, and only want a favorable moment for action." Grant has also authorized the sale of monitors of war to all Cuban purchasers. So if Grant wants a fight very badly, he can get one by applying to Spain or England or both. If war should come, Boston, New York and our other sea coast cities may look out. The shipping interest of the North has been at a low ebb for a long time. Indeed the condition of that interest has been and is now truly lamentable.—A war with any first-class foreign power will drive every American vessel from the Ocean, and then New England fanatics will feel what war is. They grew rich during *our* domestic troubles, but when England's fleets lie at the door of Boston and other cities, and scour the seas in every direction, then they will groan in spirit and lament the day when they entrusted their prosperity and happiness to the keeping of Charles Sumner and his associates in folly and madness.

The last thing we want as a people is war. We sincerely trust that wise counsels will yet prevail, and the greatest calamity that can visit any people may be averted.

AMERICAN INCONSISTENCIES.

The policy of England has sometimes abounded with the grossest inconsistencies. She abolishes her slaves and encourages the Cooly trade. She oppresses Ireland and the Sikhs, but indulges in sentimental twaddle about good government and liberal laws, and winks approvingly at Confederate successes. But in this line, she is nothing compared to Uncle Sam. He can sing a louder refrain to liberty than any other and yet glory in oppressing those of his own household. He can abuse the true Southron and condole tearfully with the wronged and injured of other climes and peoples. He can expose the horrors of slavery in the South, and yet practice a hundred fold worse tyranny in the North. He can set up claims to be the great apostle of an advanced civilization and "great moral ideas," and yet wantonly violate the plainest lessons of duty and the simplest maxims of right.

Now all this can be established by taking each of these statements as a book upon which to hang an argument. But we turn to day from this task, and in lieu of any remarks of our own, prefer to lay before our readers some impressive and truthful observations which we find in the Chicago *Times*. That able paper says:

"It is not long since the national legislature expressed unmistakably its sympathy for the Spanish people in their revolt against the bourbon monarchy. Now, a portion of Cuba is in revolt against the very people for whom we formally expressed our sympathy; and the house of representatives and many of the prominent newspapers of the country have not hesitated to express condemnation of the very men with whom, but yesterday, we cordially sympathized. At the same time, while demanding from England reparation and apology for its premature recognition of the confederacy, we do not hesitate to urge upon the administration the recognition of the Cuban insurgents, who have neither armies, government, ships, a capital, nor any reasonable prospect of success.

The Supreme Court recognizes the fact that no State has been, or can get out of the Union, while Congress legislates upon the theory—avowed by Thad. Stevens—that the revolted States were out of the Union, and should be treated as territorial dependencies. South Carolina secedes, and is coerced into submission. Iowa courts pronounce the decisions of the United States Court to be void, and thus place the State in the precise attitude of South Carolina; but nothing is done about it, and the defiance of the Hawkeye State is made with entire impunity.

We talk of war with England, and we have not three available vessels wherewith to combat the most formidable naval power in existence. We are in debt to the verge of repudiation, and we talk glibly of conquests upon Spanish soil, of annexing Canada, of defying Great Britian. With an army of less than 50,000 men, scattered over an enormous area, we propose interference in European politics; we intermeddle with affairs in the orient; we back up Russia in its intrigues against the sultan; and offer our mediation in the difficulty between the Turk and the Greek.

Billions in debt, we subsidize enormous and swindling railway enterprises; we purchase Alaska; we negotiate for St. Thomas; we propose to buy Cuba; we offer millions for a Mediterranean island; and have serious thoughts of buying one or two Mexican States. A professed union of sovereign and equal States, we do not hesitate to enact and enforce legislation wherein individual States are made subjects of invidious law. Declaring solemnly and unmistakably in our compact of union that each State shall decide for itself as to the qualifications of voters, we provide penalties to oblige certain States to forego their rights in this particular, and to allow New England to prescribe the qualifications of the voters of South Carolina.

A republic in which ostensibly the majority rules, we have been for nine years in a condition in which a fanatical minority has ruled the majority. Pledged to economy in the administration of public affairs, we economize by discharging a few cheap clerks in the departments at Washington, while, all through the country, the official channels are filled with turgid streams of corruption and peculation which there is no effort made to dam, or to lessen in volume."

The New York *Sun* says: The exorbitant charges at the various summer resorts of this country last season have led a large number of wealthy citizens to make preparations to visit the principal cities of Europe this summer, because a tour in the latter will involve less expense than a few trips to our local springs and watering places. It is estimated that the cost of a brief tour in Europe, from this port, will be about five or six hundred dollars, while the amount necessary to enjoy life in the cool retreats of this and other States would be necessarily greater.

A VERY ELOQUENT SPEECH.

The debates in the Spanish Cortes have been for some weeks extremely interesting and able. Many of the speeches have been marked with the highest eloquence and some are by no means deficient in caustic severity and pungent wit. One of the most eloquent and intolerant men in that distinguished body is Senor Manterola, the canon of Vitoria. He recently made a fierce onslaught upon other creeds (he is a Romanist,) but defended with great earnestness and power his own people against unfounded and gratuitous charges.

He was replied to by CASTELAR, whose speech as reported, is very remarkable for point, boldness, ingenuity, justness of sentiment and eloquence of expression. We may give some other and longer extracts hereafter, but to-day we have only space for his concluding remarks, which must have produced a strange and startling effect in the highest legislative assembly of that ancient Kingdom, the very centre of Roman Catholic power and influence.

CASTELAR, said in conclusion, and the passage appears to us remarkably eloquent and impressive:

"Senor Manterola says I have never been in Rome. Yes, I have. I have visited its ruins; I have contemplated its three hundred domes; I have been present at the ceremonies of the Holy Week; I have admired the gigantic Sibyls of Michael Angelo which seem to launch eternal maledictions. I have seen the sun penetrate into the basilica of St. Peter's. I have sought in those ashes an atom of religious faith—I have only encountered deceit and doubt.—Yes, I have been in Rome, and I have seen in the "Sala Regia," painted by Bassari, a fresco of the emissaries of the King of France who sent to the Pope the head of Coligny. I have seen the apotheosis of the great ecclesiastic glories of the execution ers—the assassins of the night of St. Bartholomew. Canon Manterola has said that he would renounce all his ideas and all his beliefs if the Jews returned again to rebuild the temple of Jerusalem. What! does Senor Manterola believe in the terrible dogma that the children are responsible for the sins of the fathers? Does Senor Manterola believe that the Jews of to-day are the Jews who crucified Christ? I do not believe it; I am more of a Christian than that! Great is God in Sinai; the thunder precedes him, the lightning accompanies him; the light envelops him, the earth trembles, the mountains fall in pieces! But there is a God grander and greater than that. Not the majestic God of Sinai, but the humble God of Calvary, nailed to a cross, wounded, thirsty, crowned with thorns, gall on his lips, and yet saying—'Father, forgive them, forgive my executioners, forgive my persecutors; pardon them, for they know not what they do!'—Great is the religion of Power, but greater is the religion of Love. Great is the religion of impiacable Justice, but greater is the religion of pardoning Mercy. And I, in the name of that religion—I, in the name of the Gospel, come here to ask you to write in the front of your fundamental code—Liberty, Equality, and Fraternity amongst all mankind."

A SIGN.

War with England is evidently popular with Northern Radicalism. The other day the New York *Herald* hit Grant a tremendous blow. It is now patting him most kindly, but insists upon a change of Cabinet officers. It wants Sumner—mellifluous Charles—to be Secretary of State, and all on account of (as it would have people believe) his "great speech" on the Alabama claims. *Very* great speech! Tremendous speech! Its result may be a war. A nation may be led into war because a Quixote in politics had made a "great speech." What did Sumner pay Bennett for that blast on his brass horn? But after all the *Herald* man is not serious. To-morrow he may advocate some other man's claims to the same post, provided he is paid enough. It is not impossible that even rhodomontade Chandler may be the man.

ANGRY DISCUSSION.—It is rumored that the Radical Commissioners appointed to locate the Penetentiary had a regular quarrel yesterday. "General Dockery" was made chairman, whereupon Cebe Harris, Superintendent of Public Works, took umbrage, because he considered himself as *ex officio* chairman of the Board. We think Cebe was right. There were angry words uttered and bad feeling manifested; the result was, Cebe Harris and Attorney General Coleman tendered their resignations.—How will the State get along without Cebe and Coleman?

THE BEST.—As we have been several times asked, "Which is the best literary Weekly?" we make the following response, and we take leave to add we do *not exchange* with either of the two literary papers we are about to mention. *Our* opinion is unbought and unselfish. Our response is, it depends upon taste and specialties. If you want the best *criticisms* merely, then we would say, take the *Round Table*. But if you want the best printed, the best illustrated, the greatest diversity, and, *perhaps*, the most purely intellectual, then take the new candidate for popular favor, *Appleton's Journal*. In politics, on the Radical side, *The Nation* is the calmest and the most thoughtful. On the Democratic side, hitherto the best exponent, of moderate and judicious thinking, has been *The Statesman*. How it will continue, "this deponent saith not." As a mere paper, combining news with discussion of current political events, as we think, the New York *World* is the ablest and most appetizing. One thing is lacking in that very able paper. It does not give as much of the purely literary as a paper occupying so exalted a rank should. Superior in general ability to the London *Times*, it is far below it in supplying literary pabulum.

CHATHAM EDUCATIONAL CONVENTION.

PITTSBORO, April 30th, 1869.

Pursuant to previous notice a large number of the teachers and other friends of education in the county of Chatham, assembled in the Pittsboro Scientific Academy, at 11 o'clock, when the Convention was called to order by Mr. A. Moring being appointed temporary Chairman, and Mr. H. A. London, Sr., temporary Secretary.

Major R. W. York, as Chairman of the Committee appointed by the Trustees of Ruffin Badger Institute, read the report of said Committee, which was accepted.

On motion, the Chairman appointed a Committee of three to report permanent officers for the Convention. Said Committee being composed of the following gentlemen, Messrs. Denson, Sutton and Martin, who shortly thereafter reported the names of the following officers: As President, Major R. W. York, of Moringsville; as Vice Presidents, Messrs. Isham Cox, of Snow Camp, and B. J. Howze, of Haywood; as Secretory, Mr. Henry A. London, Jr., of Pittsboro, and as Assistant Secretary, Mr. Robert Cowan, of Pittsboro; which report was unanimously adopted.

The above officers were requested to enter upon the discharge of their duties.

Upon taking his seat, the President, Maj. R. W. York, delivered a few forcible and eloquent remarks, strongly setting forth the advantages of developing the minds of our youth, of fostering our schools, and arousing the people to the importance of this great work.

The Secretary read the list of delegates in attendence at this Convention, including the representatives of the students of Ruffin Badger Institute, Pittsboro' Scientific Academy, Locust Hill Female Seminary, Sylvan Academy, and the Haw River Institute.

A Committee of three was appointed to arrange the times and places of the meetings of this Convention.

A resolution was adopted, requesting the President to appoint a Committee to prepare a Constitution and By-Laws for the government of a permanent Educational Association. Upon this Committee were appointed Messrs. C. B. Denson, R. B. Sutton, S. Finley Tomlinson, John A. McDonald and T. B. Lasater.

The Committee of Arrangements, through their Chairman, announced the order of exercise as follows: the address of Mr. Isham Cox, at 4, P. M; Prof. York at 7½, P. M., and Prof. Tomlinson to-morrow at 11, A. M.

Quite a spirited debate here ensued as to the future place of meeting, when, on motion, the Convention adjourned until 3, P. M.

AFTERNOON SESSION.

The Convention assembled in the Academy at 3, P. M., and was called to order by the President.

Proceedings were read and approved.

On motion of Mr. J. H. Fowler, it was resolved that a Committee of three be appointed to ascertain the condition and report the statistics of the schools in the county of Chatham, viz: Messrs. Fowler, Lather Clegg and M. Q. Waddell.

Mr. John A. Womack moved that the special order for the night, Prof. York's address, be changed from 7½ P. M. to 8½ P. M., which motion was carried.

The hour of 4 P. M. having arrived, for which Mr. Cox's address had been made the special order, he proceeded to entertain and instruct the Convention with a discourse which every one heard with much interest and profit.

After a few forcible remarks upon the importance of a moral as well as literary education, the first principle of which is *obedience*, he gave a highly instructive account of the successful operations of the improved system of teaching, as introduced into the schools established by the Baltimore Association of Friends.

On motion of C. B. Denson, it was resolved that a Committee be appointed to make arrangements for the organization of an Institute, for the training of teachers in their work, with leave to report at a future meeting.

The President appointed on said Committee, Messrs. C. B. Denson, R. B. Sutton, S. F. Tomlinson, Isham Cox, J. J. Jackson, A. Moring and Prof. Brantly York.

Upon the adoption of this resolution most stirring and appropriate remarks were made by Messrs. Denson, Sutton, Tomlinson and York.

On motion of Mr. John Manning, Jr., on account of the inclemency of the weather, the address of Prof. York was postponed until to morrow, at 11 A. M.

On motion of Mr. Waddell it was resolved that Messrs. Denson, Sutton and York, be requested to visit the Normal school, established by the Baltimore Association of Friends, at the next session, to be held at Springfield, near High Point, on the 6th of July next, and report at the next meeting of this Convention, the operations of said schools.

Notice was given that the Committee on Constitution and By-Laws would meet immediately after adjournment of this meeting, and, also, that the Committee on school statistics would meet at 9 P. M., to-morrow.

On motion, the Convention then adjourned to meet at 7½ P. M.

EVENING SESSION.

Convention met at 7½ o'clock, pursuant to adjournment, and was called to order by the President.

Minutes of last meeting read and approved.

The Committee on Constitution and By-Laws reported through their chairman, Capt. C. B. Denson, which report after a full and free debate, participated in by many Delegates, and the insertion of some slight alterations, was adopted, and the following Constitution with suitable By-Laws accompanying, were unanimously accepted for the government of the Association:

We, the members of this Convention, deeply feeling the importance of an effort to organize the various educational enterprises of Chatham into one harmonious whole, and farther, to awaken her people to the performance of their full duty toward the young of the land, to cherish the institutions of learning that we now enjoy, and to animate our whole population to an energetic march in the direction of future greatness and prosperity, do unite for these ends, and adopt the following Constitution. (To be published hereafter.)

Upon motion, the election of officers was made the special order for to-morrow at 9 o'clock, A. M.

The Convention thereupon adjourned to meet to-morrow at 8 o'clock, A. M.

May 1st, 1869.

MORNING SESSION.

After organization the minutes were read and approved.

Names of new delegates were then enrolled.

On motion of J. G. Rencher, it was

Resolved, That a committee of five be appointed to examine the relative merits of the different school books now in use in the schools of this county, and that they be ordered to make a full report to the first regular meeting of this Association.

Upon this Committee were appointed Messrs. Rencher, Sutton, Denson, Merritt and Moring.

The President made a statement that he had received a letter from the Publishing House of A. S. Barnes & Co., offering to send copies of any books published by them that this Association may desire to examine.

Mr. Denson stated that he should feel authorized to announce the same willingness on the part of Messrs. Ivison, Phinney, Blakeman & Co.

The election of officers being next in order, Mr. McDonald nominated Maj. R. W. York, as President for the ensuing year, who was duly elected.

Mr. Manning nominated Mr. Isham Cox, as 1st Vice President, who was elected.

The following officers were also duly chosen: 2nd Vice President, B. J. Howze; 3d Vice President, A. H. Merritt; Recording Secretary, Henry A. London, Jr.; Corresponding Secretary, C. B. Denson, and as Treasurer, John A. Womack.

The election of 4th Vice President was postponed until the next meeting.

Upon motion it was

Resolved, That the next meeting of this Association be held at Pittsboro' on the 23d and 24th of July next.

Captain C. B. Denson, as Principal of the Pittsboro' Scientific Academy, extended an invitation to the members of the Association to attend the Commencement Exercises of that Institution on the 10th and 11th of June next, at the end of the 4th scholastic year.

On motion of Mr. J. H. Fowler, it was

Resolved, That the thanks of this Convention are due, and are hereby tendered, to the citizens of Pittsboro' for their kindness and hospitality.

Resolved, That to the ladies of Pittsboro' whose zeal are always foremost in good services, has added so materially to the success of this Convention, language cannot express our gratitude.

Prof. S. F. Tomlinson then delivered a chaste and elegant Essay upon "Labor."—This was heard with profound attention, and was one of the most interesting features connected with the meeting of the Convention. Prof. Brantley York then favored the Convention with an address of great power, and practical bearing, interspersed with pleasing illustrations of the force of his logical positions. The subject was "The Grammer of the English Language," and was handled in a manner long to be remembered.

On motion of Mr. Henry A. London, Jr., it was

Resolved, That a Committee of five be appointed by the Chair, to prepare an address to the people of North Carolina, setting forth the objects of this Association, and inviting all friends of Education to attend our next meeting with a view of forming a State Educational Association.

The following gentlemen were appointed: Henry A. London, Jr, A. H. Merritt, Rev. Robt. H. Sutton, C. B. Denson, and Prof. B. York.

On motion of Mr. Houze, it was

Resolved, That the Secretary be authorized to send a report of the proceedings of this Convention to the Raleigh *Sentinel* and *Standard*, and the Fayetteville *People*, and to request other papers in the State, favorable to the cause, to copy the same.

On motion of Mr. Manning, a vote of thanks was tendered to the officers, for the prompt and cautious performance of their duties, and to the speakers, as a testimony of our appreciation of their happy efforts to add interest to this Convention.

On motion, the Convention adjourned.

We have recently had the most delightful rains in this section. Vegetation is promising, and our city now presents a very beautiful appearance.

GREEN PEAS.—A lady of our City had English peas on the 29th ult. Blair feasted his guests to day upon this early vegitable

READ Charles Mackay's capital poem on fourth page. It is witty and wise.

TO CORRESPONDENTS.—You must condense your articles. Be short if you wish your articles published. Two pages of foolscap is long enough for one article.—Few people read long articles unless specially interesting.

THE PENITENTIARY.—We learn that those having the matter in charge have chosen a location for the Penitentiary on the South Western part of the City, not far from the Lunatic Asylum. The place is known as the "Temple of Love" It will damage the value of some of the best private property in the City. The old quarry was the proper place.

The following notice is taken from a paper to us unknown:

PARADISE LOST ILLUSTRATED.—If the reader, who didn't go, expects us, who did, to describe the Miltonian Tableaux, that have been exhibited for three nights past to thronged houses, he will be disappointed, for we can't do it. We might say, like gushing girls who pronounce on all things through the same descriptive, that they were "beautiful!" But beautiful is not the word. We might exclaim, with poetic fervor, that they were "sublime!" But sublimity is not their only quality: Most we can say of them is, that like a noble sermon, coming from the pure heart and luminous mind of a good minister, they awe the spectator into silence and feelings of insignificance, and we know not of a higher compliment to pay these paintings. Like music and eloquence, works of art are to be judged more by the effect they produce on the willing mind than by any fixed rules of criticism, and that the effect of these representations is ennobling there is no question.

It is grovernential are made the more reverential, and the light-minded to forget their silly levity, while gazing on these conceptions of the poet and painter the Miltonian Tableaux need no defender. Then, their object is attained, and criticism proves nothing.

THE Emperor of Brazil has appointed a "Board of Health" to investigate and decide what proprietary remedies should be admitted into the country and what excluded. After some months session they have reported condemning them all except Dr. J. C. Ayer & Co's preparations. Three of those they recommended the Emperor to admit for the benefit of the public health while they hold the fourth, Cherry Pectoral, under advisement for further information respecting one of its ingredients—morphine, which, while so extensively employed and so highly esteemed as a remedy in this country, is scarcely known in that. Of all the other medicines before them, the Imperial commission say, "no one of them merits any favor whatever, or protection from this Government, as they contain nothing new nor any specific virtues not fully known and used by our own physicians." The Imperial Government has accordingly prohibited them all from admission through the custom house, except the remedies of our distinguished countrymen above mentioned—a discrimination by their learned men, very like that to which experience has led the American people.—[*Boston Herald.*

RESOLUTION OF THANKS.—The Orange Presbytery, that lately met in this city, passed the following Resolutions:

Resolved, That the thanks of this Presbytery are due, and are hereby tendered to the citizens of Raleigh, for their generous hospitality in entertaining its members, and also to the officers of the Methodist and Baptist Churches for the use of their houses of Worship.

Resolved, That we hereby acknowledge the courtesy of the several Railroad Companies who have afforded us facilities in attending this meeting, and returning to our homes.

Resolved, That the pastor of this Church be directed to read these resolutions from the pulpit.

THE WHEAT CROP as far as we can learn is extremely flattering. We saw ten days ago in Granville county large fields of the most beautiful wheat, which was on an average nearly knee-high.

TURTLE SOUP.—Our old friend Pepper invited us yesterday to partake of turtle soup. We did not get a benefit, however. To-day he sent us a capital repast and the writer and the "man with the monkey wrench" from Sheffield, England, eat to repletion. Many thanks! It was admirably served.

THE *Biblical Recorder* is edited by a gentleman who understands how to say sharp things in a shortway. He has been to Granville. Hear him:

"We spent four days last week among the farmers of Wake and Granville, and found them full of life and activity. In spite of rogues they are raising hogs, colts and cattle. In spite of the scarcity of hands they are planting large crops of cotton, tobacco and corn. The Swiss immigrants are working well and giving satisfaction. Negroes also are learning the benefits of regular employment, and are improving in diligence and industry. In spite of Gen. Bennett, his detectives and other modern "publicans and sinners" tobacco brings a good price, and there are signs of returning prosperity.

Gen. Bennett has been dismissed, and is officially dead. If we say "nothing but good concerning the dead," his obituary will be brief."

STATE NEWS.

THE RESULT OF THE ELECTION.—As predicted by us, the municipal election, yesterday, passed off quietly. The vote was much smaller than even that of the 19th ult., not more than 475 ballots being cast for Aldermen at large. The Radicals had everything their own way, and the regular nominees, with one exception, were elected.—*Newbern Journal of Commerce.*

IS IT RIGHT?—We see that several members of our Legislature have received appointments to positions under the National Government. Is it right that they should continue to hold their seats in the Legislature while holding a Federal office? If the Constitution does not expressly forbid it, ought not a law be passed to prevent the bad and dangerous practice?—*Charlotte Democrat.*

The merchants of Wilmington now close their stores at sun-down. An excellent idea.

Eighteen persons united with the Presbyterian Church in Wilmington on last Sabbath. Two were members of other Churches.

Items from the *Hillsboro Recorder* condensed:

Mr. H. C. Thompson, of Chapel Hill, had his smoke house robbed of all the bacon but one piece.

Long and McCauley's store in the same town was entered, but the rogues were driven off by the town guard. Lost, several pieces of bacon.

A negro was killed last Saturday morning at Company Shops. He fell from the car and was run over.

Primus Borland, near Hillsboro,' attempted a rape upon the person of a negro girl fifteen years of age by the name of Martha Thomas. Both negroes. Primus is now in jail.

There is a mineral spring three miles from Hillsboro,' that the *Recorder* says is as good as Kittrell's. It belonges to an old lady by the name of Ray. It has made cures already. People from Hillsboro, spend weeks there.

A. B. Newman, of Caswell, had a valuable horse drowned in Dan River. He jumped out of the ferry boat.

Wheat crop about Milton is exceedingly fine.

The *Standard* denounces the editor of this little sheet as an "enemy to the people." We make no blatant professions of our love for the people. We leave that to demagogues; to the dirty shufflers of a greasy pack of cards; to the whisker swills and wind-broken officials that crack their clerks into trumpeting *their* regard for a people, on whose necks they have their heels—and on whose substance they are daily battening like hungry wolves. We are one of the people. One of the "laboring" people.—While the *Standard* eats free pig and free pie; we pay taxes and eat the crumbs that are left. While the *Standard* wears glossy broadcloth and shiny beavers—we—with the people—possess 3 old shirts and a rent suit of homespun cloth. The *Standard*—a friend to the people. Bah!—*Hillsboro Recorder.*

The *Standard* published a marriage in this vicinity wrong. Instead of Miss Amanda M. Utley, it was Miss Susan A. Utley to Adolphus J. Gordon, all of this county.—*Ib.*

A WARNING.—The son of Mr. Dixion, of this county, in getting a pipe full of tobacco from his pocket, got mixed with it a metalic cartridge. It exploded and tearing the skin off his nose, lodged into the bony surface above his right eye. The bullet part of the cartridge happened to be turned downwards and shivering the pipe to atoms it mashed flat upon the hearth—To this probably he owes his life.—*Ib*

Green Peas are now (and have been for a week or more past) selling in our market for $3 per bushel—in the shell, of course—Those that we have seen are fine, large and healthy.—*Wil. Journal.*

ROBBERY.—A party of thieves entered the smoke house of Mr. Alex. Johnson, Jr., on Orange street, between Fourth and Fifth, Saturday night last, and carried off nearly the entire contents. The entrance was effected by means of a false key, and about a half a barrel of flour, several pieces of bacon and sundry other articles in the grocery stolen.—*Ib.*

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the system seemed utterly given up to corruption, have yielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the *Sarsaparilla* as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or tumors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, uncleanliness, and the depressing vices generally, produce it. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose tainted blood swells the veins with an apparently exuberant vitality, are often contaminated, and do not suspect it in their innocence. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Ears and Eyes*, and other eruptive or visible forms of the diseases caused primarily by the scrofulous infection, the *Sarsaparilla* is so efficient as to be indispensable. And in the more concealed forms, as in *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and other affections of the muscular and nervous systems, the *Sarsaparilla*, through its purifying power, removes the cause of the disorder and produces astonishing cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts combined with it, of still greater power. So potent is this union of healing virtues, *Syphilis or Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases* in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our *Sarsaparilla*. *Rheumatism* and *Gout*, often dependant on the accumulations of extraneous matters in the blood, have their remedy also in this medicine. For *Liver Complaints*, torpidity, inflammations, abscess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the *Sarsaparilla*.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon felt by those who are *Languid, Listless, Despondent, Sleepless*, and filled with *Nervous Apprehensions or Fears*, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for *General Debility*, have written us of the youthful vigor imparted to their nervous system, which seemed buoyant with that prolific life they thought had departed on the advance of age. Others, whose blood was thin and impure, have always known their obligations to it for an obvious change.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in this distressing cause, and where other remedies had wholly failed.

Caucelimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

ASSETS	$10,402,531,75.
AMOUNT OF INCOME	6,227,071.
SURPLUS OVER LIABILITIES	2,675,999,48.

THE Ætna is not only the LEADING LIFE INSURANCE COMPANY in North Carolina in having paid the Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. Having by far the largest numbers. But when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies.

It is one of the great Companies of the land
IN INSURANCE, IN ASSETS, IN NUMBER OF POLICIES,
IN AMOUNT INSURED, IN SOLIDITY AND STRENGTH,
IN SOUNDNESS, CHEAPNESS,
PROMPTNESS, AND SUCCESS.

Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of ALL and take a policy accordingly.

A MAN'S A MAN FOR A' THAT.

A NEW VERSION.

"A man's a man," says Robert Burns,
"For a' that and a' that;
But though the song be clear and strong,
It lacks a note for a' that.
The lout who'd shrink his daily work,
Yet claim his wage and a' that,
Or beg, when he might earn, his bread,
Is not a man for a' that.

If all who dine on humble fare
Were true and brave, and a' that,
And none whose garb is "holden gray"
Was fool or knave, and a' that,
The vice and crime that shame our time
Would fade and faint and a' that,
And plowmen be as good as kings,
And churls as earls for a' that.

You see you brawny, blustering sot,
Who swaggers, swears and a' that,
And thinks, because his strong right arm
Might fell an ox and a' that,
That he's an noble man for man,
As duke or lord, and a' that;
He's but a brute, beyond dispute,
And not a man for a' that.

A man may own a large estate,
Have a palace, park, and a' that,
But not for birth, but honest worth,
Be thrice a man for a' that;
And Donald herding on the muir,
Who beats his wife and a' that,
Be nothing but a rascal boor,
Nor half a man for a' that.

It comes to this, dear Robert Burns—
The truth is old, and a' that—
"The rank is but the guinea's stamp,
The man's the gold, and a' that."
And though you'd put the minted mark
On copper, brass, and a' that,
The lie is gross, the cheat is plain,
And will not pass for a' that.

For a' that, and a' that,
'Tis soul and heart and a' that
That makes the King a gentleman,
And not his crown and a' that;
And man with man, if rich or poor,
The best is he, for a' that,
Who stands erect, in self-respect,
And acts the man for a' that.

CHARLES MACKAY.

Wheedon's Excelsior Labor-Saving
WASHING COMPOUND.
Patented Sept. 22, 1868.

REASONS FOR PREFERING THIS SOAP.

The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:
First, it can be manufactured at less than half the cost of any soap ever produced.
Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft
Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.
Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.
Fifth, the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his *death*, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which *Life* Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.
Amount insured, $10,005,550.00
Total Premiums, 350,117.03

The whole number issued by the Connecticut Mutual in the first year of its existence was 392
By the Mutual Benefit of New Jersey, 693
" New England Mutual, 343
" Phœnix Mutual, 235
" Massachusetts Mutual, 312
" Equitable of New York, 277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, 1,260 "
And in its 20th year, 2,642 "
this latter being 630 less than was issued by the NATIONAL in its first seven months.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks, so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."
In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

WE inaugurated and are the *Great Through Inland Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of Shippers, North and South, for the last ten years, as the ten Thousand shippers in North and South Carolina will testify. We paid the State near Seven Hundred Thousand Dollars for her Interest in this Road—thereby saving the people from Taxation for all time to come $40,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

MISCELLANEOUS
NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.
This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.
The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.
The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR OR FRICTION.—A thorough rinsing finishes the process.
Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.
The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.
No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State.
